# Selective Trial Test Course (STTC)

The Selective Trial Test Course (STTC) is specifically designed to give students an in-depth, immersive experience of the selective school exam before the real test day arrives. This course goes beyond surface-level preparation by diving deep into every aspect of the exam — familiarising students with the **computer-based** test format, timing, question structures, and real exam conditions they will encounter.

Through consistent weekly trial tests, students will tackle a wide variety of question types across all key subject areas, while developing powerful strategies that will set them up for success.

## Key Benefits of STTC:

- ❖ **Practice Makes Perfect:** Regular, structured trial tests allow students to develop a strong familiarity with the exam format. By repeatedly engaging with exam-style questions under timed conditions, students reduce exam anxiety and sharpen their ability to perform consistently and accurately when it counts.
- ❖ **Detailed Feedback:** Students will have access to individual, detailed results through Cyberschool, allowing them to identify strengths, pinpoint areas for improvement, and track their progress over time. This data-driven approach ensures that every student's preparation is targeted and effective.
- ❖ **Writing Mastery:** Strong writing is a critical component of the selective school exam. Students will receive personalised, expert feedback on their written responses, helping them refine their structure, language, and ideas to produce compelling, high-scoring writing pieces.
- ❖ **Power Up Your Performance with Cyberschool:** Maximise your performance by taking full advantage of Cyberschool exclusive activities and resources, specifically curated to complement and support your STTC journey. From additional practice materials to targeted exercises, Cyberschool provides the extra edge students need to go into the exam feeling fully prepared and confident.
