Selective Trial Test Course (STTC)

The Selective Trial Test Course is a comprehensive preparation program designed for students aiming for the Selective School Placement Test. The exam is demanding, requiring not only strong content knowledge but also speed, strategic thinking, and the ability to stay calm under pressure. That's exactly why the STTC exists.

Each week, students sit a full trial test, review their performance, identify areas needing improvement, and complete targeted online follow-up activities that turn mistakes into meaningful progress.

Through consistent weekly practice, they encounter a wide range of question types across all subjects while building the strategies and confidence essential for exam success.

Key Benefits of STTC:

- ❖ **Practice Makes Perfect:** Regular, structured trial tests help students become deeply familiar with the exam format. By repeatedly working under timed conditions, they reduce anxiety and strengthen their ability to perform accurately and consistently when it matters most.
- ❖ **Detailed Feedback:** Students receive personalised, data-rich results through Cyberschool, allowing them to recognise strengths, pinpoint weaknesses, and monitor improvement over time. This ensures preparation is focused, efficient, and effective.
- ❖ **Writing Mastery:** Writing is a crucial component of the selective and independent school scholarship exams. Students benefit from expert, personalised feedback on their written responses, helping them refine structure, language, clarity, and ideas to produce high-scoring pieces.
- ❖ **Boost Your Performance with Cyberschool:** Cyberschool offers exclusive activities and resources designed to complement the STTC. From extra practice materials to targeted exercises, students gain the additional support needed to enter the exam fully prepared and confident.
